

University of Maryland lab coat program

At the University of Maryland, promoting the safety of students faculty and staff in our labs is our number one priority. We are putting proper controls in place to help minimize the risk of injury starting with a new lab coat program from Cintas®.

LEARN MORE

Lab Safety is a priority. For more information about this exciting program, contact your Cintas Rep. Bill Hernandez at Hernandezw2@cintas.com or **440.488.550**.

The Cintas lab coat program will offer the following solutions so you're **Ready™** for whatever the school day brings

PROFESSIONAL LAUNDERING

Cintas uses industry appropriate water temperatures, water softness and wash formulas to keep your lab coats clean and fresh.

INSPECTION

Upon turn-in Cintas will inspect lab coats for wear and tear and staining.

REPAIR AND REPLACEMENT

Cintas will repair torn or ripped lab coats or provide a replacement lab coat when necessary.

DISCLAIMER: Cintas does not make or provide any representations, recommendations, guidance, or training with respect to Personal Protective Equipment ("PPE"), including lab coats, worn by any individual or offered by the school or university, or with respect to the type of PPE that is suitable for any particular environment. It is the sole responsibility of the university to perform assessments to identify potential hazards and to make all determinations with respect to PPE, including with respect to lab coats. Cintas shall have no liability to the university, its employees, its students, or to any other person or entity relating to Cintas's provision of PPE, including lab coats, or any services related thereto. CINTAS DISCLAIMS ALL WARRANTIES OTHER THAN AS EXPRESSLY PROVIDED.
